

Taking the COVID-19 vaccine helps protect you and your community.

It has been through the same safety checks as any other vaccine and is safe and effective.

If you are over 65, you can drop in to one of the NHS Greater Glasgow & Clyde mobile vaccination units coming to your area. There is no need for an appointment. All clinics are open from 10am – 5pm.

We will be in your area on:

**Friday 14th October, Barlanark Community Centre, Burnmouth Road
Glasgow, G33 4RZ**
